

Thanks to various grant awards, including a matching grant from the City of Norfolk, SpayHR (www.spayhr.org) is pleased to continue our program of free spay/neuter for resident dogs and cats in Fairmount Park and Ocean View. Surgeries are done through Greenbrier Animal Care Center, and transportation assistance can typically be arranged. Anyone interested is asked to complete an online application (<http://www.artanimals.org/spayneuter/form.php>), or call 757-456-1215 to leave your information.

With spring and summer being peak breeding season and the most taxing months on our shelters, now is the time to ensure your pet does not contribute to new litters of puppies and kittens.

Vaccines, tests, and heartworm/flea preventive are also available for a nominal fee.

For more information, please e-mail spayhr2010@gmail.com
