**Police Report:**

**(7:05)**

Below are last month's crime statistics. We are down a few incidents from last month but we are still having the same issues as usual. A suspect has been identified that is involved with the larcenies from autos in the EB area. 3 warrants have been issued but he is still currently outstanding. I will say since the warrants were issued, the larcenies from auto in EB have gone down substantially. This does not mean citizens can relax, please ensure they are still locking their vehicles and not leaving anything valuable inside. you have any questions please let me know.

**2 Burglaries:**

-9600 Shore Dr (Attempt)- EB Vet, Window broken into but access was not made. Pending.

-9600 Shore Dr- Window left unlocked, Pending. No cameras around.

-7900 turner Rd- Suspect is victim's ex-wife. Pending.

## **Community Updates:**

**(7:06)**

The Tidewater Drive/ West Ocean View Ave project is done. Traffic seems to be flowing well.

The summer newsletter is available on line. Go to the website and enjoy.

The fence at the community garden was taken out by a traffic accident.

Insurance is supposed to get it repaired.

I have been asked about getting speed bumps replaced on 20<sup>th</sup> Bay as a safety feature. We will get the information on the process and share with membership. It requires a significant amount of signatures from each street to get installed.

L'legra Smith wishes to provide information on the upcoming Nov. vote for the Norfolk Casino project.

We have also been asked to review OV Salt, a project that was first presented to our civic league last Sept. Trevor Spiers provided an overview which was shared with membership in the meeting announcement. He will review it tonight and also answer questions. After the discussion we will need to take a vote regarding this project.

OV Salt presentation:

<https://www.dropbox.com/sh/x3dbfgw99cm8iub/AADypaqS0LKpuZI5lifW4cnya?dl=0>

Trevor is requesting a votes for an amendment to the existing rezoning with regards to the new building design. Does membership support the project as it has been changed?

We also need a letter for ARB support. Does membership wish to provide their support to the ARB?
